## **Subject: Notice of NOP Certification**

Dear Ram,

Congratulations! You have been granted NOP Certification for the handling of the organic products listed in your enclosed certificate.

Overall, your operation is in compliance with the standards. No compliance issues were noted.

### **CL Note from Reviewer:**

- Products cannot be exported without a valid NPOP certificate.

Your certificate, inspection report, and exit interview are enclosed. Please examine the certificate carefully to be sure that all information is listed correctly.

Once certified, a production or handling operation's organic certification continues in effect until surrendered, suspended or revoked. An organic system plan update is due each year followed by an on-site inspection to verify continued compliance. Your next annual update is due on **February 28, 2024**.

### **Reminders:**

- Please contact us for transaction certificate before sale/transaction of any organic material along with transaction certificate request.
- Please contact us for inspection and sampling of each export shipment of organic soybean meal prior to export destined to USA.

Be sure to notify OneCert of any application of a prohibited substance to any certified field or product and of any changes to your organic system that may affect your certification.

According to NOP, failure to notify certifier of changes and use of prohibited substances are the top reasons for suspension or revocation of certification.
